## Brief Introduction of Eco Polymers (Manufacturer's Introduction)

Eco Polymers P.Ltd is one of the biggest water tank manufacturer in Nepal having the experience of decades in this field. The Industry is located at Chitwan Which makes convenient to deliver all over Nepal. It produces modern storage / water tank with many applications, It is engineered to reflect high level of quality and long life durability of storage / water tank, which can be simply observed by customer from its rigid construction, it's shining with beautiful design. It can be used to store multiple items such as water, food or grains, fuel, milk and many more.

It is produced from international standard; fully automated machine and the product is from 100% VIRGIN LLDPE material. Thick and outer threaded tank cap gives additional advantages to user, which sealed the tank in such a way that it is safe from environmental dust, insects etc. Hence it is named as ECO TANK.

**First ever unbreakable tank manufacturer in Roto-moulding**  
**"First tank Manufacturer with threaded lid"**  
**In Nepal**
